Thanks for asking Bob. The check should be in the amount of \$7,435.05. Miki will deliver the check to me and I'll get it to the manufacturer.

Don, 'm confused on how much the check should be for. The total indicates \$9,020.05. However, there is a comment in the "Special Considerations" "if ordered during free freight promotion, payment in the amount of \$7,435.05, and sign-off on quotation, must be received no later then end of business on 2/29/16, for a total savings of \$1,585.00. Please advise which amount to make check for. I will deliver check to Miki tomorrow morning.

Bob

Please prepare a check for the attached and hold it for me to forward to the manufacturer.

Thank you.
